Setting The Guide Pusher:
Move the pins so that the guide pusher (when pushed down) is centered with the magazine.

Placing the Magazine
Place magazine in the cutout notch. This will ensure that the magazine is sitting properly in the loader.

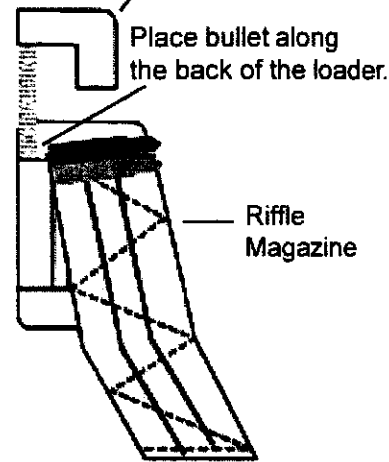

STEP 2

Place the loader and magazine in cup the hand. Your thumb will push the guide down and load the bullets into the magazine.

STEP 3

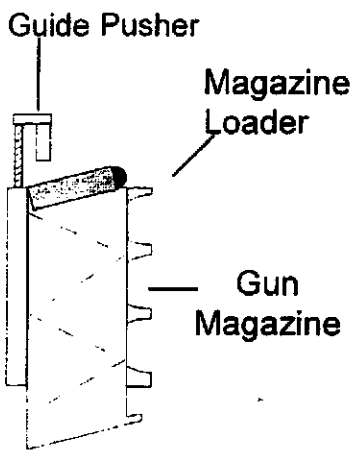

Loading The Magazine
Push down until the bullet enters the magazine then release the pusher. Repeat this process until the magazine is full.

US Patent Number 6,178,683 B1

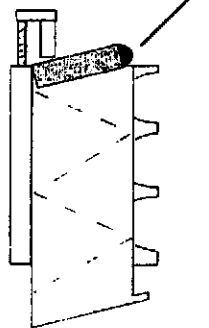

Any UNAUTHORIZED modifications will void all warranties for this product.

STEP 1

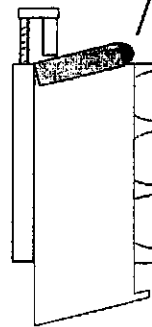

STEP 2

Push down until the next bullet enters then release the pusher.

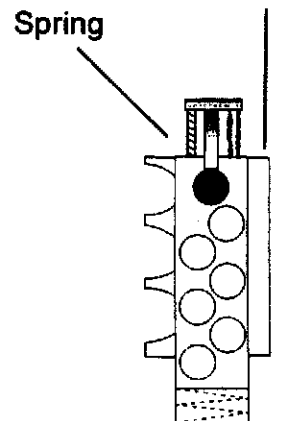

STEP 3

Repeat until the magazine is full.

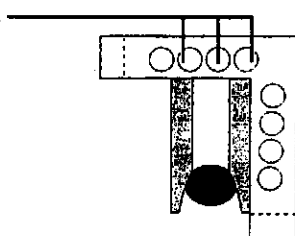

STEP 4

Adjustable guide blocks to hold magazine and guide pusher.

Locate hole near center of magazine and place pusher in the hole on either side.

US Patent Number 6,178,683 B1

L.I.E. LOAD IT EASY

Any UNAUTHORIZED modifications will void all warranties on this product.

AUTHORIZED MODIFICATION
For 22's pusher may need to be filed on either or both side of the pusher.
